

You don't want to mess around with the integrity of a company. And you don't want the company messing around with the money you've earned ...do you?

Integrity defines all, and it pleases me to be part of a company whose broker reflects this through active participation as the chairman of the WCAR Grievance Committee.

My transition to Benchmark was flawless... even in the midst of juggling multiple clients! The business model puts the agent first, and the **proof is in the pocket book**. What I saw was a huge annualized savings. What does it mean to me? Hear this: A year's worth of monthly mortgage payments... Is that significant? To me it is!

Andy Brookover

Working with highly experienced professional agents is the core of the Benchmark Realty foundation.

The principal broker, Phillip Cantrell, provides knowledge, support and years of expertise in the local market. The result is a very positive, **unique Real Estate synergy** among the agents.

I would encourage any real estate professional to consider joining the Benchmark Realty team, and take their business to the next level!

Casey Cook

I have been with Benchmark for nearly 2 years. When I first joined Benchmark, I was just looking for low fees and the opportunity to sit in open houses. What I got was low fees, the opportunity to sit in open houses and a **FABULOUS BROKER!**

I learned more in my first two weeks than I had learned in months with my former broker. Phillip always took the time to sit down with me and go over forms and information and answer any questions I had. Probably the most impressive quality is the instant communication within Benchmark Realty. I never have to worry that my question or concern won't be addressed within minutes of leaving a message or sending an e-mail.

If you want a caring, fair broker, Phillip Cantrell at Benchmark Realty is for you!

Darlene Morton

While searching for a new Real Estate Company to place my license with, Phillip Cantrell, came to mind. After meeting with Phillip, I knew this was where I wanted to be. The amazing part is that Benchmark offered a real choice in the compensation I received, it was a no-brainer, considering, I kept more of my hard-earned commission.

Benchmark is the **epitome of the Real Estate business**. Benchmark has absolutely everything I wanted and needed as a REALTOR, a Broker who is accessible, very knowledgeable, listens intently and gives great feedback and suggestions, a supporting office manager and staff as well as an Auction Company.

Benchmark serves the whole REALTOR Business, not just portions of it, whether your client is a first time homebuyer, or commercial investor, searching for HUD homes, or foreclosure properties. There has never been a time, that I have called Phillip or the office and they have not answered the phone or responded in a timely manner.
